Instalację wodociągową wykonano z rur tworzywowych typu pex łączonych przez kształtki złączkowe zgodnie z wytycznymi producenta systemu. W przypadku konieczności stosowania innych materiałów i rozmieszczenia punktów styków wykonano zgodnie z wytycznymi producenta systemu. Dopuszczono się wykonanie instalacji z innych odstępionych systemów tworzywowych lub z rur metalicznych. Projektant nie odpowiada za sposób wykonania instalacji. Przed realizacją zadania należy sporządzić projekt wykonawczy-hydrauliczny instalacji, który będzie stanowił podstawę wykonania prac instalacyjnych i sprawowej realizacji robót.
