Figure 1. Schematic diagram of the experimental setup. The subject is seated in a chair, viewing a screen displaying a target (red dot) and a starting point (blue dot). The hand is positioned at the starting point, and the arm is extended towards the target. The distance between the starting point and the target is labeled as  $d$ . The distance between the starting point and the hand is labeled as  $r$ . The distance between the hand and the target is labeled as  $d - r$ . The distance between the starting point and the target is labeled as  $d$ . The distance between the starting point and the hand is labeled as  $r$ .
