

Architectural drawing of a building facade, showing a curved roofline and a ventilation unit. The drawing includes the following details:

- Elevations:**
 - Top left: ± 9.50
 - Top right: ± 9.02
 - Bottom left: ± 7.15
 - Bottom right: ± 7.15
- Dimensions:**
 - Horizontal distance from the left edge to the start of the curved roof: 187.5
 - Horizontal distance from the start of the curved roof to the end: 47.5
 - Horizontal distance from the end of the curved roof to the right edge: 47.5
 - Vertical distance from the bottom edge to the start of the curved roof: 65
 - Vertical distance from the bottom edge to the end of the curved roof: 7.80
- Roof Profile:** The roof is shown with a 5.0% slope, indicated by a triangle with '5.0%' and an arrow.
- Ventilation Unit:** A unit labeled "CENTRALA WENTYLACYJNA" is shown on the right side of the facade. It has a diamond-shaped symbol "A" above it and an arrow pointing upwards.
- Other Features:** The drawing shows various architectural details such as windows, doors, and structural elements along the facade.
